GUEST ACCESSIBILITY GUIDE

WELCOME TO SIX FLAGS HURRICANE HARBOR NEW JERSEY

We are glad you are here! At Hurricane Harbor New Jersey, we are proud to have earned one of the best safety records in the industry. We are committed to providing our Guests with a safe environment. We want our Guests to have a safe and enjoyable day. We are continually striving to improve our facilities.

Many amusement park rides incorporate safety systems designed by the manufacturer to accommodate people of average physical stature and body proportion. These safety systems may place restrictions on the ability of an individual to safely experience the ride. Guests of larger or smaller size, Guests who have a history of heart, back, or neck trouble, Guests who are pregnant, Guests who have had recent surgery, or Guests with casts, braces, restrictive devices or disabilities may not be safely accommodated by these systems. For example, height requirements are based on the size needed for the safety restraints to function properly and the level of maturity usually associated with a certain height.

The Attraction Accessibility Program has been developed using our past experiences and our evaluation of each ride in both normal and emergency operating conditions. We also work closely with the manufacturer of each ride and our policies incorporate the manufacturers' guidelines as well as the requirements of the Americans with Disabilities Act. We hope that this Guide will help Guests make the best choices to ensure a safe and enjoyable experience at the park. Our goal is to safely and efficiently accommodate the needs of all Guests, including individuals with disabilities.

Our prime consideration is the ability of each person to endure the dynamics of a ride without risk of injury to that person or other Riders. If you have a suggestion for an improvement or have questions not answered in this brochure, please stop at Hurricane Harbor Resort Services. If you feel that you or a member of your party may be affected by this policy, you are encouraged to visit Hurricane Harbor Resort Services to obtain a list of rides you can you can enjoy safely. Your Rider Access Form will provide information for our Associate to help accommodate you.

PLEASE PARTICIPATE SAFELY

State law requires that each Rider must obey all written warnings and directions regarding this ride and refrain from behaving in a reckless manner which may cause or contribute to injury to the Rider or others. Failure to comply is a violation of law and subject to penalty under the **New Jersey Code of Criminal Justice pursuant to N.J.S.A. 5:3-36.1**. Violators may be subject to a fine of up to $1,000 and imprisonment of up to six months.

While all amusement attractions have associated risks, certain individuals are at increased risk for injury from these attractions. Carefully evaluate each attraction to determine if you or members of your party can safely participate. We reserve the right to deny access to a ride to anyone who we feel may not be able to safely experience the ride or may be a hazard to other Riders.

A Safety Guide sign is posted at every ride entrance and Alternate Access entrance. These signs provide height requirements, health restrictions, ride ratings, ride accessibility, and special instructions regarding the ride. Please review these signs prior to accessing the ride and follow all instructions provided.

In general, all Guests should be in good health and free from any conditions known or unknown, that might be aggravated by riding. If you have any doubt about your ability to safely experience a ride, we urge you to consult with our staff at Six Flags Hurricane Harbor New Jersey. Remember, if you suspect your health could be at risk for any reason, or you could aggravate a pre-existing condition of any kind, **DO NOT RIDE**.

Generally, Guests must have the ability to brace themselves upright in the seat and support their head and neck during the ride movements. Guests using wheelchairs will have to transfer from their wheelchair to the ride unit by themselves or assisted by a member of their party in order to be able to ride. You should plan your visit with someone who can physically help you when necessary.

As a Guest, you are responsible for your own safety. Please read this Guide and all instructional signage before riding. Listen to and follow all operator instructions. Any person who intentionally removes a safety restraint, violates a park safety policy, or appears to be under the influence of alcohol or chemical intoxicants will be removed from the park without refund. **FOR YOUR SAFETY, DO NOT ENTER AN UNAUTHORIZED AREA FOR ANY REASON**. You may be seriously injured if you enter an unauthorized area.

Before riding, please note all safety warnings for each ride. In general:

- Follow all proper Rider positioning until the ride comes to a complete stop.
- Due to the nature of our rides, backpacks, purses, electronics, stuffed animals, jewelry, and other loose items are not permitted on most attractions. Hurricane Harbor New Jersey is not responsible for lost or stolen items. You are responsible for your personal property.
- No picture taking, cell phone, or electronic usage while participating.
- Finish food and drink before boarding.
- Smoking, including e-cigarettes, is not permitted in Hurricane Harbor New Jersey.

RIDE RATING SYSTEM

A Ride Rating System has been designed that provides a scale for rating the thrill factor of each ride. The intent is to provide a scale to help park Guests in determining which attractions to ride based on their own experience level, physical condition, and abilities.

Each ride/attraction is placed into one of five categories:

CATEGORY		DESCRIPTION
Low Thrill Rides		This is a low speed, and/or shallow water attraction.
Mild Thrill Rides		This is a low to medium speed attraction, and/or water depth to 48 inches. Some Rider control, maneuvering and/or swimming skills required.
Moderate Thrill Rides		This is a medium speed attraction. Height and water depth may vary. Moderate or unexpected forces can be generated during the ride. This attraction may require Rider control and/or strong swimming skills. Physical activity may be strenuous.
High Thrill Rides		This is a fast paced ride experience. Riders will encounter changes in speed, direction, elevation, strong water currents, and/or depth of water, some of which is unexpected. This attraction requires Rider body control and strong swimming skills.
Aggressive Thrill Rides		This is a high speed and/or deep water attraction with turbulent turns, drops, and/or strong water currents with changes in speed, direction, elevation and/or deep water, that may be unexpected. This attraction requires Rider body control and swimming skills.

KEY TO SYMBOLS

These symbols, along with the ride ratings, are used to define our rides on the following pages.

	Ambulatory
	Accommodates wheelchair
	Transferable
	Must be accompanied by Supervising Companion of proper height to ride
	Must be accompanied by a child to ride/participate
	Must be at least this height to ride
	Maximum speed of ride
	Life jacket is required
	Cannot be any taller than this to ride/participate
	Maximum height of ride
	Maximum water depth
	Prohibited for Guests with back trouble
	Prohibited for Guests with heart trouble or high blood pressure
	Prohibited for Guests with neck trouble
	Prohibited for pregnant Guests
	Prohibited for Guests who have had recent surgery

ACCESS SYMBOLS

Symbols indicate boarding procedures for each ride and are defined below.

 This symbol is used to identify attractions where Guest may remain in their wheelchair: Blue Lagoon; Calypso Springs; Discovery Bay Pool; Lazy River.

 This symbol identifies attractions that can accommodate Guests who are able to transfer from the wheelchair to the ride unit by themselves or assisted by a member of their party.

 This symbol identifies where Guests must be able to walk independently or be assisted by a member of their party.

DEFINITIONS

Every attraction entrance lists height requirements and special instructions regarding the ride. Hurricane Harbor New Jersey uses the following terms:

 **Ability to Hold On or Brace:** Ability to use one's arms to maintain a grasp on an assist bar and support one's body during normal and emergency procedures on a ride and to use one's legs to brace to maintain a seated position during the forces of the ride.

 **Hand-Held Infants:** Hand-held infants are children who are unable to independently walk or maintain seated postural control and will only be able to ride the following rides with a Supervising Companion: Cowabunga; Splashin' Seal; Stingray Racer.

 **Supervising Companion:** A Supervising Companion is someone who meets all the requirements to ride the ride themselves, who is at least 54" in height, approximately 14 years of age, and demonstrates appropriate observed behavior. Supervising Companions are responsible for ensuring that the accompanied Rider remains seated properly where applicable and follows all rules and regulations. The Supervising Companion must be seated in the same seat (row) as the Rider who needs accompaniment and can accompany the number of Riders for which the seat is designed. For example, if a seat is designed for three people, the Supervising Companion can accompany two Riders.

HEALTH RESTRICTIONS

Each ride is evaluated against five primary health restrictions. These restrictions are:

- Back Trouble
- Heart Trouble/High Blood Pressure
- Neck Trouble
- Pregnancy
- Recent Surgery

If you are in doubt about your ability to safely experience a ride or would like more information, please review the information for each attraction in this Guest Accessibility Guide or review the Safety Guide and all warning signs posted at each ride entrance and Alternate Access Entrances.

PREGNANCY

Guests who know or believe they may be pregnant should follow all rules, guidelines, and restrictions listed for each attraction. Those who are pregnant should not ride a ride that specifically lists pregnancy as a participation restriction. Please closely review all rules and guidelines at the entrance of each attraction. Guests who are pregnant may participate in: Blue Lagoon; Calypso Springs; Discovery Bay Pool, Lazy River; Mini Waves Pool.

HEIGHT REQUIREMENTS

Height requirements and specific instructions are posted at the entrance to each attraction. Height measurements are taken in bare feet.

To accurately measure Guests, a height measuring device may be used. This device may come into contact with the Guest's head for a brief period.

LIFE JACKETS

Life jackets are available for all Guests. Only U.S. or Canada Coast Guard approved life jackets are allowed as floatation devices. Life jackets are provided free of charge for Guests who require one.

In wave pools, life jackets are required for Guests who are shorter than 52" in bare feet, participants with a history of seizures (or similar medical conditions), heart conditions, or those who are inexperienced or non-swimmers. Children who are shorter than 42" must wear life jackets and be accompanied by a Supervising Companion. This policy will be enforced at Blue Lagoon.

In other attractions requiring life jackets, children who are shorter than 48" in bare feet or those who are inexperienced

or non-swimmers must wear a life jacket. Children who are shorter than 42" must wear life jackets and be accompanied by Supervising Companions. This policy will be enforced at: Big Bambu; Calypso Springs; Lazy River; Mini Waves Pool; Reef Runner.

CASTS & BRACES

Guests with casts and braces will be restricted from rides where the cast or brace will not fit inside the ride unit or where it will present a hazard to the Guest or others. Guests with full arm (elbow restricted) and full leg (knee restricted) casts or braces are restricted from most rides and water slides. We suggest you delay your visit until the cast is removed. Casts and braces with exposed metal parts are not permitted on the slides.

The following chart displays the cast and brace rules for all rides and attractions.

- **O** Not permitted to participate on elevated activity area
- **Y** May ride with the condition
- **Z** Participation or water depth may be restricted if necessary

HURRICANE HARBOR NEW JERSEY	Cervical Collar or Neck Brace	Forearm Cast	Full Arm Cast	Braced Arm Cast	Foot Lower Leg Cast	Full Leg Cast

Tornado						

PROSTHESES

Guests who do not have any exposed metal parts are generally permitted on all waterpark attractions. Please consult with a member of the Aquatics Supervisory Team prior to riding to ensure that you have a safe riding experience.

ONGOING LIFEGUARD TRAINING

In an ongoing effort to provide a safe and enjoyable waterpark experience for our Guests, Hurricane Harbor New Jersey routinely utilizes training exercises to improve our lifeguards' skills and vigilance. These exercises will occur during normal operating hours and may consist of the following: submersible water manikins; the use of video surveillance equipment; internal and external audits; active/inactive water rescues and/or first aid scenarios.

ADDITIONAL INFORMATION

Our goal is to make Hurricane Harbor New Jersey as enjoyable and barrier-free as practical. Listed below are some of the services we offer. Please feel free to suggest areas in which we might improve in the future.

Braille & Large Print Versions
Print versions of the Park Guide and Guest Accessibility Guide are available at Hurricane Harbor Resort Services. Braille and large print versions are also available. There are a limited number of print Guides that are obtainable on a first-come, first-served basis.

Family Services
A space for nursing mothers is available at First Aid. Baby changing areas and a Companion restroom can be found in most restrooms. Please feel free to ask an Associate for directions to these locations or review a park map.

First Aid
Our First Aid Building located between Discovery Bay and the Blue Lagoon and is staffed from park open to park close. Medical equipment storage and refrigeration for Guests with medication is offered at First Aid.

Parking
Accessible parking is available on a first-come, first-served basis within the main parking lots of the park. When you arrive at the parking toll booths, ask an Associate for instructions regarding where to proceed to the accessible parking lot. Both auto and van accessible spaces are provided. A valid disabled persons parking placard or license plate must be displayed at all times while parked in the designated accessible parking area. If the designated accessible parking area is full at the time of your arrival, members of your party may be dropped off at the main pick-up/drop-off area, near the

main entrance to the park. Proper vehicle identification must be displayed. Security Officers on duty are authorized to ticket and/or tow vehicles that do not display proper identification. Please ask an Associate for directions to additional parking areas.

Restrooms
Private restroom facilities for Guests needing the assistance of a Companion are available at First Aid. Wheelchair accessible stalls are located at all restrooms. For your convenience we also have a family restroom available at First Aid.

Service Animals
Service animals are welcome at Hurricane Harbor New Jersey. A service animal is defined as a dog that has been individually trained to do work or perform tasks for a person with disabilities. Examples of such work or tasks include: guiding people who are blind; alerting people who are deaf; pulling a wheelchair; alerting and protecting a person who is having a seizure; reminding a person with mental illness to take prescribed medications; calming a person with Post Traumatic Stress Disorder (PTSD) during an anxiety attack; performing other duties. Service animals are working animals, not pets. The work or task a dog has been trained to provide must be directly related to the person's disability. Dogs whose sole function is to provide comfort or emotional support do not qualify as service animals.

Service animals must be house broken, controlled with a restraining device, and display appropriate behavior at all times while on our property. Guests whose service animal demonstrates aggressive and/or inappropriate actions toward a Guest or Associate will be directed to remove the animal from the park. There is a limit of one service animal per Guest.

We are not permitted to take control of your service animal. Service animals are not permitted in water attractions, wet decks, wading pools, or rivers.

A Service Animal relief area is located in the grassy area between Four Winds and Discovery Bay. Please look for the designated sign. Owners are responsible for disposing of their animal's waste.

Shuttle Busses
An ADA accessible bus is available for transportation to and from the Theme Park and Water Park, as well as the Drop Off Lot.

Special Dietary Needs
Although outside food and beverages are not allowed in the park, individuals who have special diets or need items due to a medical condition, may bring small coolers to accommodate such needs. Please visit Guest Services for more information.

Wheelchairs & Electric Convenience Vehicles
A limited supply of wheelchairs are available for rent at Resort Services. However, since wheelchairs are rented on a first-come, first-served basis and cannot be reserved in advance, we urge Guests to bring their own. Rentals are also available at the park while supplies last.

Wheelchairs may not be taken out of the park gates or to the parking lot. However, a park Associate will be happy to provide any assistance you may need at that time. For any Guest using a personal Segway, please stop by Hurricane Harbor Resort Services prior to entering the park.

Guests Using Wheelchairs or ECVs
Guests who choose to use a wheelchair or ECV, must maintain a safe speed while traveling in the park. Wheelchairs and ECVs cannot be accommodated on most attractions. Please refer to the individual attraction description in the back of this brochure for more specific information. On most attractions where Guests in wheelchairs can be accommodated, Guests will need to leave their wheelchairs to be seated. In most cases, a wheelchair may be left in a designated position on the walkway near the attraction. If in doubt about your ability to safely experience an attraction, we urge you to consult with our staff at Hurricane Harbor Resort Services. Hurricane Harbor New Jersey personnel are not trained in transferring Guests from wheelchairs to ride units and are not permitted to do so. You should plan your visit with someone who can physically help you when necessary.

Motorized or electric personal wheelchairs are not permitted at any locations. Walkers, canes, or other assistive devices are permitted only at ankle depth in the following attractions: Blue Lagoon; Discovery Bay Pool; Calypso Springs; Lazy River.

During your visit, please speak to a member of our Aquatics Supervisory Team to obtain access to the water wheelchair or pool lift and for further accessibility information.

EVACUATIONS

Evacuations may be required due to such causes as a mechanical reason, weather conditions, or a power interruption. If an evacuation is required, Guests may be asked to evacuate pools as quickly as possible using stairs or ladders. If an evacuation from a slide is required, remain seated until given instructions. For safety reasons, we may evacuate ambulatory Guests prior to evacuating those Guests

using wheelchairs. If so, you accept any risk due to delayed evacuation or if we need to physically lift or lower you.

GUESTS OF A LARGER SIZE

Due to manufacturer requirements, Guests of a larger size (in terms of height, weight, and/or proportions) may not be accommodated on some of our attractions. Maximum and minimum weight limits can be found under the individual attractions in this Guide and on the Safety Guide Signs at the entrance to attractions with restrictions.

LOOSE ARTICLES

Most attractions cannot accommodate loose articles including: jewelry; cell phones; hats; eyewear; cameras; purses; backpacks; beverage containers; electronic devices; etc. Items must be safely secured in a waist pack, in a locker, or with a non-Rider. Hurricane Harbor New Jersey is not responsible for lost, stolen, or damaged items. Any non-compliance which results in damage or injury to person or property will result in consequences up to and including prosecution.

For safety reasons, cell phone usage, taking pictures and filming on attractions are prohibited. Glasses must be secured on all rides. Glasses must be secured by an athletic strap or they cannot be worn on: Bada Bing, Bada Bang, Bada Boom; Big Bambu; Hurricane Mountain; Mat Racer; Reef Runner; The Winds; Tornado.

Hearing devices and other electronic devices may be damaged by water. Please take necessary precautions to protect hearing devices on all attractions.

Sensory headphones or helmets may be accommodated on select rides. Please see an Associate for more details.

LOST & FOUND

All items found at Hurricane Harbor New Jersey are turned in to Hurricane Harbor Resort Services. If you lose an item on an attraction, we will search for the article as soon as possible. In order to keep the attraction in operation, an immediate search may not be possible. Lost articles may be reported online at **sixflags.com/hurricaneharbornewjersey/help/lost-found-services**.

FOR YOUR SAFETY, DO NOT ENTER UNAUTHORIZED AREAS TO RETRIEVE LOST ARTICLES. You can be seriously injured if you enter an unauthorized area.

OXYGEN TANKS

Neither portable oxygen tanks nor personal oxygen equipment are permitted on waterpark attractions.

PROPER ATTIRE

Appropriate swimwear is required. Thongs and transparent clothing are not permitted. We reserve the right to determine the appropriateness of swimwear. Guests wearing bathing attire with metal buttons, rivets, zippers, or snaps will not be permitted to ride any of our slides. Jewelry, including but not limited to, necklaces, bracelets, dangling earrings, and rings other than wedding bands are prohibited on The Falls. For your safety, loose clothing (including scarves and other free-flowing clothing) must be significantly secured or removed to prevent any interference with the ride experience. Hearing devices or other electronics may be damaged by water. Please take the necessary steps to protect such items. Contact lenses are not recommended. Guests requiring special accommodations should speak to a member of the Aquatics Supervisory Team.

SCALES

Red light/green light scale systems are used at weight sensitive attractions. Guests who do not meet the weight requirement will not be permitted to ride. Scales are used at: Big Bambu; Hurricane Mountain; Mat Racer; Reef Runner; Tornado.

SWIM DIAPERS

Guests who require a diaper are required to wear swim diapers or a diaper specifically designed for aquatic use.

RIDER CRITERIA

Our Attraction Accessibility Program is designed to allow Guests to participate in the enjoyment of our attractions as much as possible. The program was developed by analyzing the physical and mental attributes required to safely participate in each attraction. It is our policy to allow anyone to participate who meets all these requirements and is not a hazard to themselves or others. We continue to evaluate and update our Attraction Accessibility Program as necessary.

The evaluation of each attraction considered the following criteria:

Independent seated postural.
The Guest must have the body and spinal control to sit upright without the aid of other people or devices. The Guest must also have sufficient muscle control to support their head, neck, and upper torso during the course of the ride, including the dynamic motion of the ride.

Appropriate center of gravity.
The Guest's body must have the appropriate weight distribution for that ride.

Ability to hold on with one functioning arm.
Guests must have one functioning arm that exhibits good grip control, the ability to brace, and is strong enough to allow the Guest to maintain proper riding position throughout the duration of the ride. A functioning arm may be a natural arm or a prosthesis which can be used for gripping and bracing. Any arm prosthesis must remain properly secured under the dynamic forces of the ride. Due to manufacturer requirements, some rides may exclude prostheses.

Ability to hold on with two functioning arms.
Guests must have two functioning arms that exhibit good grip control, the ability to brace, and are strong enough to allow the Guest to maintain the proper riding position throughout the duration of the ride. A functioning arm may be a natural arm or a prosthesis which can be used for gripping and bracing. Any arm prosthesis must remain properly secured under the dynamic forces of the ride. Due to manufacturer requirements, some rides may exclude prostheses.

Ability to brace self with one functioning leg.
Guests must have one functioning leg to be used for bracing the body during the course of the ride. A functioning leg may be a natural leg or a prosthesis used for bracing the body during the course of participation and maintaining balance when entering and exiting a ride unit. Any leg prosthesis must remain properly secured under the dynamic forces of the ride. Due to manufacturer requirements, some rides may exclude prostheses.

Ability to brace self with two functioning legs.
Guests must have two functioning legs to be used for bracing the body during the course of the ride. A functioning leg may be a natural leg or a prosthesis used for bracing the body during the course of participation and maintaining balance when entering and exiting a ride unit. Any leg prosthesis must remain properly secured under the dynamic forces of the ride. Due to manufacturer requirements, some rides may exclude prostheses.

Minimum of two functioning extremities.
Guests must have a minimum of two functioning extremities (two legs, two arms, or one arm and one leg) to brace themselves during the ride and assist in entering and exiting the ride unit.

Minimum of three functioning extremities.
Guests must have a minimum of three functioning extremities (two legs and one arm or two arms and one leg) to brace themselves (with tripod bracing) during the ride and assist in entering and exiting the ride unit.

Minimum of four functioning extremities.
Guests must have four functioning extremities (two legs and two arms) to brace themselves during the ride and assist in entering and exiting the ride unit.

Ability to enter/exit ride within specified parameters without endangering self or others.
Guests must be able to enter and exit the ride without jeopardizing themselves or others and to assist with their own evacuation, if necessary. This may include special arrangements such as entering through the Alternate Access entrance or having someone aid in boarding. For the safety of our Associates and Guests, Team Member are instructed not to lift any Guests.

Appropriate observed behavior:
Guest demonstrates appropriate observed behavior indicating a willingness and ability to participate and/or follow Guest requirements. Appropriate observed behavior may include, but not be limited to, maintaining proper riding position, attention and compliance to safety instructions, proper use of all ride safety equipment, and willingness to participate.

Guests have a duty to:
- Exercise good judgment
- Act in a responsible manner while using amusement rides
- Not participate while under the influence of alcohol or drugs
- Properly use all ride safety equipment provided

ATTRACTIONS

The following descriptions are designed to give you information on the type of actions caused by various attractions. Each of the following attractions will identify the restrictions according to the criteria itemized above. **In order to participate on most attractions, Guests must have seated postural control, appropriate center of gravity, appropriate observed behavior, and the ability to enter and exit the ride safely**. Specific exceptions or qualifications to those four criteria will be noted in the information provided below. If you have been authorized for Alternate Access, follow the directions listed under each ride.

Bada Bing, Bada Bang, Bada Boom 5

Guests must be at least 48" tall in bare feet to ride.

Maximum Weight per Rider – 250 lbs.
Maximum Weight per Double Tube – 400 lbs.

A thrilling tube slide where Riders twist and turn in an enclosed flume in near complete darkness before finishing in a 42"depth splash pool. Riders will experience high speeds and rapid movements from side-to-side.

Rider Criteria: Guests are required to maintain the proper riding position throughout the ride — remain seated in the tube facing forward and holding onto the handles throughout the ride. Guests must have a minimum of three functioning extremities. Guests with a cervical collar, neck brace, broken collarbone, full arm cast, braced arm cast, or full leg cast are not permitted to ride.

Rider Access: Access to the slides requires climbing a few steps. Riders will have to be capable of safely entering the slide, on their own or with the assistance of a Companion.

Big Bambu 5

*Guests must be at least 48" tall in bare feet to ride alone **or** at least 42" tall in bare feet **and** accompanied by a Supervising Companion **and** required to wear a life jacket.*

Minimum Weight per Raft – 250 lbs.
Maximum Weight per Raft – 600 lbs.

A large serpentine flume where two or three persons ride in a raft down a river rapids-like slide. Guests will experience high speeds, turns, and side-to-side motions. This attraction ends in a landing pool 42" deep.

Rider Criteria: Guests are required to maintain the proper riding position throughout the ride — remain seated with back against the raft, legs crossed, facing forward, and holding onto the handles. Guests must have a minimum of three functioning extremities. Guests with a cervical collar, neck brace, or broken collarbone are not permitted to ride. Casts are not permitted on this ride.

Rider Access: Access to the tower requires climbing several flights of stairs. Riders need to ascend the stairs and be capable of safely entering the tube, on their own or with the assistance of a Companion. Please use caution when entering and exiting as the raft may shift. The raft and surrounding area may also be slippery.

NOTE: A red light/green light scale is used at this attraction. Guests who exceed the weight requirements will not be permitted to ride.

Big Wave Racer 5

Guests must be at least 42" tall in bare feet to ride.

A 60-foot tall complex that has Riders slide head first on a mat down flumes into a 6" deep runout. One Rider per mat per slide at a time.

Rider Criteria: Guests must lie stomach down on a mat, facing forward, and firmly grasping the handles throughout the ride with elbows tucked in towards the body. Guests must have a minimum of two functioning arms and one functioning leg. Guests with a cervical collar, neck brace, broken collarbone, full arm cast, braced arm cast, or full leg cast are not permitted to ride.

Rider Access: Access to the attraction requires climbing several flights of stairs with a mat. Riders will have to ascend the slide tower and be capable of safely boarding the mat, on their own or with the assistance of a Companion. Please use caution when entering and exiting as the mat may shift. The mat and surrounding area may be slippery.

Blue Lagoon – Wave Pool 4

*Guests must be at least 42" tall in bare feet to ride alone **or** accompanied by a Supervising Companion. Guests less than 54" inches tall in bare feet or participants with a history of seizures (or similar medical conditions), heart conditions, or those who are inexperienced or non-swimmers must wear a life jacket. A Supervising Companion may accompany up to two children.*

A large wave pool with depths ranging from 0' – 7'. Waves are generated for five minutes on, and then five minutes off. Strenuous activity is required during wave action cycles which may require the ability to swim and which may result in fatigue. Exercise caution. Participants with a history of seizures – or heart or other serious medical conditions – should be supervised by someone who knows how to swim and how to provide emergency assistance.

Rider Criteria: Guests must be able to maintain independent seated postural control and must have appropriate observed behavior or be accompanied by a Supervising Companion. Guests must have a minimum of two functioning extremities or be accompanied by a Supervising Companion. Hand-held infants participation or water depth may be restricted if

necessary and must be accompanied by a Supervising Companion. Guests with a full arm cast or full leg cast are welcome to enjoy the attraction, but participation or water depth may be restricted if necessary. Guests with a cervical collar, neck brace, broken collarbone, or braced arm cast cannot participate.

Rider Access: Access is available via the zero-depth entry. This attraction is wheelchair accessible, although the water level may not exceed the height of the seat on the chair. A water wheelchair is available for participants requiring additional assistance. Please speak to a member of our Aquatics Supervisory Team to obtain access to the water wheelchair.

Calypso Springs 2

*Children must be at least 42" tall in bare feet to ride alone **or** be accompanied by a Supervising Companion. Children under 48" tall in bare feet or those who are inexperienced or non-swimmers are required to wear a life jacket. A Supervising Companion may accompany up to two children.*

This 100,000 gallon activity pool provides families the opportunity to cool off, sit back, and relax. At the center is an obelisk-style fountain with spontaneously erupting geyser. Guests can enter this 42" pool via a zero-depth entry or stairs.

Rider Criteria: Guests must be able to maintain independent seated postural control and must have appropriate observed behavior or be accompanied by a Supervising Companion. Guests must have a minimum of two functioning extremities or be accompanied by a Supervising Companion. Hand-held infants must be accompanied by a Supervising Companion. Guests with a cervical collar, neck brace, broken collarbone, braced arm cast, or full leg cast are not permitted to ride.

Rider Access: Access is available via the zero-depth entry. This attraction is wheelchair accessible, although the water level may not exceed the height of the seat on the chair. A water wheelchair is available for participants requiring additional assistance. Please speak to a member of our Aquatics Supervisory Team to obtain access to the water wheelchair. Please use caution when entering and exiting as the area may be slippery.

Cowabunga 2

*Guests must be between 36" **and** 54" tall in bare feet to ride.*

Maximum Weight per Rider – 300 lbs.

Small children's body slide, one Rider per slide at a time. Maximum water depth 6".

Attraction Criteria: Guests are required to maintain the proper riding position throughout the ride — lie down on their back, feet first, with arms crossed over the chest and legs crossed at the ankles. Guests may not sit up in enclosed slides while riding. Hand-held infants are not permitted to ride slides. Guests must have two functioning arms and two functioning legs. Guests with a cervical collar, neck brace, broken collarbone, full arm cast, braced arm cast, or full leg cast are not permitted to ride. Lower body casts (foot, lower leg, etc.) are not permitted on this ride.

Attraction Access: Access to the attraction requires climbing several flights of stairs. Riders will have to ascend the slide tower and be capable of safely entering the slide, on their own or with the assistance of a Companion. Please use caution when entering and exiting as the area may be slippery.

Discovery Bay 2

*Guests must be between 42" **and** 54" tall in bare feet to ride.*

Interactive water play structure with various play elements including a giant tipping bucket and four slides — two ending in a run-out with 6" deep water, and the other two ending in a 42" catch pool.

Rider Criteria: Guests are required to maintain the proper riding position throughout the ride — lie down on their back, feet first, with arms crossed across their chest and legs crossed at the ankles. Guests must have two functioning arms and one functioning leg. Guests with a cervical collar, neck brace, broken collarbone, full arm cast, braced arm cast, or full leg cast are not permitted to ride. Lower body casts (foot, lower leg, etc.) are not permitted on this ride.

Rider Access: Guests will have to transfer to the start platform on their own or with the assistance of a Companion. Please use caution when entering and exiting as the area may be slippery.

Discovery Bay Pool 2

An interactive pool for children with play elements. Maximum water depth is 24".

Rider Criteria: Guests must have the ability to enter and exit the ride safely, maintain seated postural control, and demonstrate appropriate observed behavior. Guests who do not meet these requirements must be accompanied by a Supervising Companion.

Rider Access: Access is available via the zero-depth entry. This attraction is wheelchair accessible, although the water level may not exceed the height of the seat on the chair.

Geronimo Falls 5

Guests must be at least 48" tall in bare feet to ride.

Maximum Weight per Rider – 300 lbs.

A serpentine or straight flume with high thrills of acceleration forces from side-to-side and front-to-rear. Slide ends in a 6" deep runout. One Rider per slide at a time.

Rider Criteria: Guests are required to maintain the proper riding position throughout the ride — lie down on their back, feet first, with arms crossed across their chest and legs crossed at the ankles. Guests must have two functioning arms and two functioning legs. Guests with a cervical collar, neck brace, broken collarbone, full arm cast, braced arm cast, or full leg cast are not permitted to ride. Lower body casts (foot, lower leg, etc.) are not permitted on this ride.

Rider Access: Access to the attraction requires climbing several flights of stairs. Riders will have to ascend the slide tower and be capable of safely entering the slide, on their own or with the assistance of a Companion. Please use caution when entering and exiting as the area may be slippery.

Hurricane Mountain 5

Guests must be at least 48" tall in bare feet to ride.

Maximum Weight per Rider – 250 lbs.
Maximum Weight per Double Tube – 400 lbs.
Maximum Weight per Toboggan – 600 lbs.

A thrilling tube slide where Riders twist and turn in an enclosed flume in near complete darkness before finishing in a 42"depth splash pool. Riders will experience high speeds and rapid movements from side-to-side.

Rider Criteria: Guests are required to maintain the proper riding position throughout the ride — seated in a tube, facing forward, and firmly grasping the handles. Guests must have a minimum of three functioning extremities. Guests with a cervical collar, neck brace, broken collarbone, full arm cast, braced arm cast, or full leg cast are not permitted to ride.

Rider Access: Access to the slides requires climbing a few steps. Riders will have to be capable of safely entering the slide, on their own or with the assistance of a Companion.

Jelly Fish Twist 2

*Guests must be between 42" **and** 54" tall in bare feet to ride alone **or** 36" tall in bare feet **and** accompanied by a Supervising Companion.*

Maximum Weight per Rider – 300 lbs.

Small children's body slide, one Rider per slide at a time. Maximum water depth 6".

Attraction Criteria: Guests are required to maintain the proper riding position throughout the ride — lie down on their back, feet first, with arms crossed over the chest and legs crossed at the ankles. Guests may not sit up in enclosed slides while riding. Hand-held infants are not permitted to ride slides. Guests must have two functioning arms and two functioning legs. Guests with a cervical collar, neck brace, broken collarbone, full arm cast, braced arm cast, or full leg cast are not permitted to ride. Lower body casts (foot, lower leg, etc.) are not permitted on this ride.

Attraction Access: Access to the attraction requires climbing several flights of stairs. Riders will have to ascend the slide tower and be capable of safely entering the slide, on their own or with the assistance of a Companion. Please use caution when entering and exiting as the area may be slippery.

Lazy River 2

*Children must be at least 42" tall in bare feet to ride alone **or** be accompanied by a Supervising Companion. Children under 48" tall in bare feet or those who are inexperienced or non-swimmers are required to wear a life jacket. A Supervising Companion may accompany up to two children.*

A slow moving river tube ride/attraction. Maximum water depth is 42".

Rider Criteria: Guests must be able to maintain independent seated postural control and must have appropriate observed behavior or be accompanied by a Supervising Companion. Guests must have a minimum of two functioning extremities or be accompanied by a Supervising Companion. Hand-held infants must be accompanied by a Supervising Companion. Guests with a cervical collar, neck brace, broken collarbone, braced arm cast, or full leg cast are not permitted to ride.

Rider Access: Access is available via the zero-depth entry. Riders will have to transfer to a tube, on their own or with the assistance of a Companion.

Mini Waves Pool 2

*Children must be 42" tall in bare feet to ride alone **or** be accompanied by a Supervising Companion. Children under 48" tall in bare feet or those who are inexperienced or non-swimmers are required to wear a life jacket. A Supervising Companion may accompany up to two children.*

An interactive pool for children that features slides, water cannons, and other play elements. Maximum water depth is 46".

Rider Criteria: Guests must have the ability to enter and exit the ride safely, maintain seated postural control, and demonstrate appropriate observed behavior. Guests who do not meet these requirements must be accompanied by a Supervising Companion.

Rider Access: Access is available via the zero-depth entry. This attraction is wheelchair accessible, although the water level may not exceed the height of the seat on the chair.

Reef Runner 5

*Guests must be 48" tall in bare feet to ride alone **or** at least 42" tall in bare feet **and** accompanied by a Supervising Companion **and** required to wear a life jacket.*

Minimum Weight per Raft – 250 lbs.
Maximum Weight per Raft – 800 lbs.

A large serpentine flume where two – four persons ride in a raft down a river rapids-like slide. Guests will experience high speeds, turns, and side-to-side motions. This attraction ends in a landing pool 42" deep.

Rider Criteria: Guests are required to maintain the proper riding position throughout the ride — remain seated with back against the raft, legs crossed, facing forward, and holding onto the handles. Guests must have a minimum of three functioning extremities. Guests with a cervical collar, neck brace, or broken collarbone are not permitted to ride. Casts are not permitted on this ride.

Rider Access: Access to the tower requires climbing several flights of stairs. Riders need to ascend the stairs and be capable of safely entering the tube, on their own or with the assistance of a Companion. Please use caution when entering and exiting as the raft may shift. The raft and surrounding area may also be slippery.

NOTE: A red light/green light scale is used at this attraction. Guests who exceed the weight requirements will not be permitted to ride.

Rip Qurl 2

*Guests must be at least 42" tall in bare feet to ride alone **or** at least 36" tall in bare feet **and** accompanied by a Supervising Companion.*

Maximum Weight per Rider – 250 lbs.
Maximum Weight per Tube – 400 lbs.

A moderate tube slide that takes one or two Riders through both open-air and darkened enclosed flumes, along with oscillating funnel. Once momentum subsides, the ride continues onwards before finishing in a runout slide. Riders will experience weightlessness with moderately changing forces and direction. Maximum water depth 6".

Attraction Criteria: Guests are required to maintain the proper riding position throughout the ride — remain seated in the tube facing forward and holding onto the handles. The lighter Rider sits in front in between the legs of the heavier Rider. Single Riders must be seated in the back of a double tube. Guests must have two functioning arms and one functioning legs. Guests with a cervical collar, neck brace, broken collarbone, full arm cast, braced arm cast, or full leg cast are not permitted to ride. Lower body casts (foot, lower leg, etc.) are not permitted on this ride.

Attraction Access: Access to the attraction requires climbing several flights of stairs with a tube. Riders will have to ascend the slide tower and be capable of safely entering the slide, on their own or with the assistance of a Companion. Please use caution when entering and exiting as the tube may shift. The tube and surrounding area may also be slippery.

Shark Attack 2

*Guests must be at least 42" tall in bare feet to ride alone **or** at least 36" tall in bare feet **and** accompanied by a Supervising Companion.*

Maximum Weight per Rider – 250 lbs.
Maximum Weight per Tube – 400 lbs.

A moderate tube slide that takes one or two Riders through both open-air and darkened enclosed flumes, along with oscillating funnel. Once momentum subsides, the ride continues onward before finishing in a runout slide. Riders will experience weightlessness with moderately changing forces and direction. Maximum water depth 6".

Attraction Criteria: Guests are required to maintain the proper riding position throughout the ride — remain seated in the tube facing forward and holding onto the handles. The lighter Rider sits in front in between the legs of the heavier Rider. Single Riders must be seated in the back of a double tube. Guests must have two functioning arms and one functioning legs. Guests with a cervical collar, neck brace, broken collarbone, full arm cast, braced arm cast, or full leg cast are not permitted to ride. Lower body casts (foot, lower leg, etc.) are not permitted on this ride.

Attraction Access: Access to the attraction requires climbing several flights of stairs with a tube. Riders will have to ascend the slide tower and be capable of safely entering the slide, on their own or with the assistance of a Companion. Please use caution when entering and exiting as the tube may shift. The tube and surrounding area may also be slippery.

Splash Island 2

*Guests must be between 36" **and** 40" tall in bare feet to ride.*

Maximum Weight per Rider – 200 – 300 lbs. (varies per slide)

Slides – Multiple children's body slides where Riders gently twist and turn in an enclosed flume while riding on their back before finishing in a runout. One Rider per slide at a time.

Structure – A wet and wild zero-depth children's play structure with interactive water features and a large tipping bucket.

Rider Criteria: **Slides** – Guests must ride feet first. Guests must have sufficient upper extremities to maintain the proper riding position and two functioning legs. Guests unable to maintain seated postural control must be accompanied by a Supervising Companion. Guests with a cervical collar, neck brace, broken collarbone, full arm cast, braced arm cast, or full leg cast are not permitted to ride. **Structure** – Hand-held infants must remain on ground level with a Supervising Companion. Guests with a cervical collar or neck brace are not permitted to participate on the elevated activity areas of this attraction.

Rider Access: This attraction is wheelchair accessible on the ground level. Access to the elevated levels requires Guests to climb several flights of stairs.

Splashin' Seal 2

*Guests must be between 36" **and** 54" tall in bare feet to ride.*

Maximum Weight per Rider – 300 lbs.

Small children's body slide, one Rider per slide at a time. Maximum water depth 6".

Attraction Criteria: Guests are required to maintain the proper riding position throughout the ride — lie down on their back, feet first, with arms crossed over the chest and legs crossed at the ankles. Guests may not sit up in enclosed slides while riding. Hand-held infants are not permitted to ride slides. Guests must have two functioning arms and two functioning legs. Guests with a cervical collar, neck brace, broken collarbone, full arm cast, braced arm cast, or full leg cast are not permitted to ride. Lower body casts (foot, lower leg, etc.) are not permitted on this ride.

Attraction Access: Access to the attraction requires climbing several flights of stairs. Riders will have to ascend the slide tower and be capable of safely entering the slide, on their own or with the assistance of a Companion. Please use caution when entering and exiting as the area may be slippery.

Stingray Racer 2

*Guests must be between 36" **and** 54" tall in bare feet to ride.*

Maximum Weight per Rider – 300 lbs.

Small children's body slide, one Rider per slide at a time. Maximum water depth 6".

Attraction Criteria: Guests are required to maintain the proper riding position throughout the ride — lie down on their back, feet first, with arms crossed over the chest and legs crossed at the ankles. Guests may not sit up in enclosed slides while riding. Hand-held infants are not permitted to ride slides. Guests must have two functioning arms and two functioning legs. Guests with a cervical collar, neck brace, broken collarbone, full arm cast, braced arm cast, or full leg cast are not permitted to ride. Lower body casts (foot, lower leg, etc.) are not permitted on this ride.

Attraction Access: Access to the attraction requires climbing several flights of stairs. Riders will have to ascend the slide tower and be capable of safely entering the slide, on their own or with the assistance of a Companion. Please use caution when entering and exiting as the area may be slippery.

The Winds 5

Guests must be at least 48" in bare feet to ride.

Maximum Weight per Rider – 250 lbs.
Maximum Weight per Double Tube – 400 lbs.

A thrilling tube slide where Riders twist and turn in an enclosed flume in near complete darkness before finishing in a 42"depth splash pool. Riders will experience high speeds and rapid movements from side-to-side.

Rider Criteria: Guests are required to maintain the proper riding position throughout the ride — remain seated in the tube facing forward and holding onto the handles throughout the ride. Guests must have a minimum of three functioning extremities. Guests with a cervical collar, neck brace, broken collarbone, full arm cast, braced arm cast, or full leg cast are not permitted to ride.

Rider Access: Access to the slides requires climbing a few steps. Riders will have to be capable of safely entering the slide, on their own or with the assistance of a Companion.

Tornado 5

Guests must be at least 48" tall in bare feet to ride.

Maximum Weight per Tube – 700 lbs.

Cloverleaf tubes takes two – four Riders twisting and turning into complete darkness before dropping vertically into a funnel. The tube will slide back and forth in the funnel before finally ending in a 36" splash pool.

Rider Criteria: Guests are required to maintain the proper riding position throughout the ride — seated in the tube with feet in the middle, facing forward, sitting up straight, and holding on to both handles. Guests must have two functioning arms and one functioning leg. Guests with a cervical collar, neck brace, broken collarbone, full arm cast, braced arm cast, or full leg cast are not permitted to ride. Lower body casts (foot, lower leg, etc.) are not permitted on this ride.

Rider Access: Access to the attraction requires climbing several flights of stairs with a tube. Riders will have to ascend the slide tower and be capable of safely entering the tube, on their own or with the assistance of a Companion. Please use caution when entering and exiting as the tube may shift. The tube and surrounding area may also be slippery.

NOTE: A red light/green light scale is used at this attraction. Guests who exceed the weight requirements will not be permitted to ride.

WARNING

There are inherent risks in participating in any amusement attraction. If you choose to participate, you accept the risks and agree to do so responsibly. Read all important safety information prior to riding and obey all posted and verbal instructions. For your protection, each attraction is rated for its special features including height, speed, direction, and dynamic forces. You know your physical conditions and limitations, Six Flags Hurricane Harbor New Jersey does not. If you suspect your health could be at risk, or you could aggravate any pre-existing condition, **DO NOT RIDE!**
